A stack of books is shown against a dark blue background. The books are stacked on the right side, with their spines facing left. The top book has a light blue cover. The pages of the books are visible, showing a warm, golden-brown color. A dark blue overlay covers the top left corner, and a light blue overlay covers the top right corner. The text "Full publishing services for book authors" is written in white on the light blue overlay.

Full publishing services for book authors

What is Sciendo?

Sciendo is a leading provider of publishing services and solutions to academic and professional organizations as well as individual authors.

The company is a part of the **De Gruyter Group**, a renowned academic publisher with a company history of over 260 years.

Why Sciendo?

Sciendo can meet all publishing needs for authors of academic and professional books in the English language. We publish monographs, textbooks, edited volumes, and other book types. Our customers have a choice between offering the Open Access for the electronic version of their books, or for the book to be distributed via traditional commercial methods.

Sciendo is not just another service or technology vendor. As a part of the De Gruyter Group, Sciendo can therefore offer you world-class publishing solutions and services tried and tested on our own books and proceedings. De Gruyter publishes more than 1,300 books and proceedings a year, and has a backlist of about 100,000 published titles.

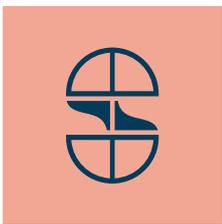

Your options

As a book author, you have two options to publish your book with Sciendo. If you have funds from your affiliate institution or another sponsor for the book publication, please use the Full publishing services option outlined here. If not, you can enjoy the Sciendo **Self-publishing option**.

The rest of this brochure deals with the **Full publishing services option**. In this option, we can sign the agreement with the author or with the institution. The terms and the fees remain the same.

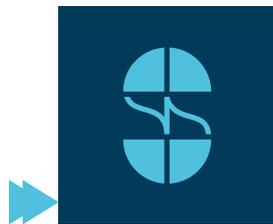

How we offer our services?

Sciendo offers a range of book publishing packages prepared to meet the author's and the sponsoring institution's expectations, needs and budget. Sciendo offers the **Standard**, **Classic** and **Premier** Packages.

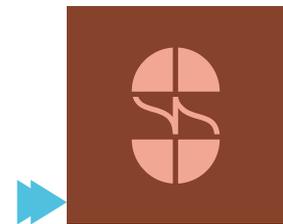

STANDARD

Basic services
facilitating
book publication

CLASSIC

Standard package
Typesetting
and proofreading
Book layout
Cover design

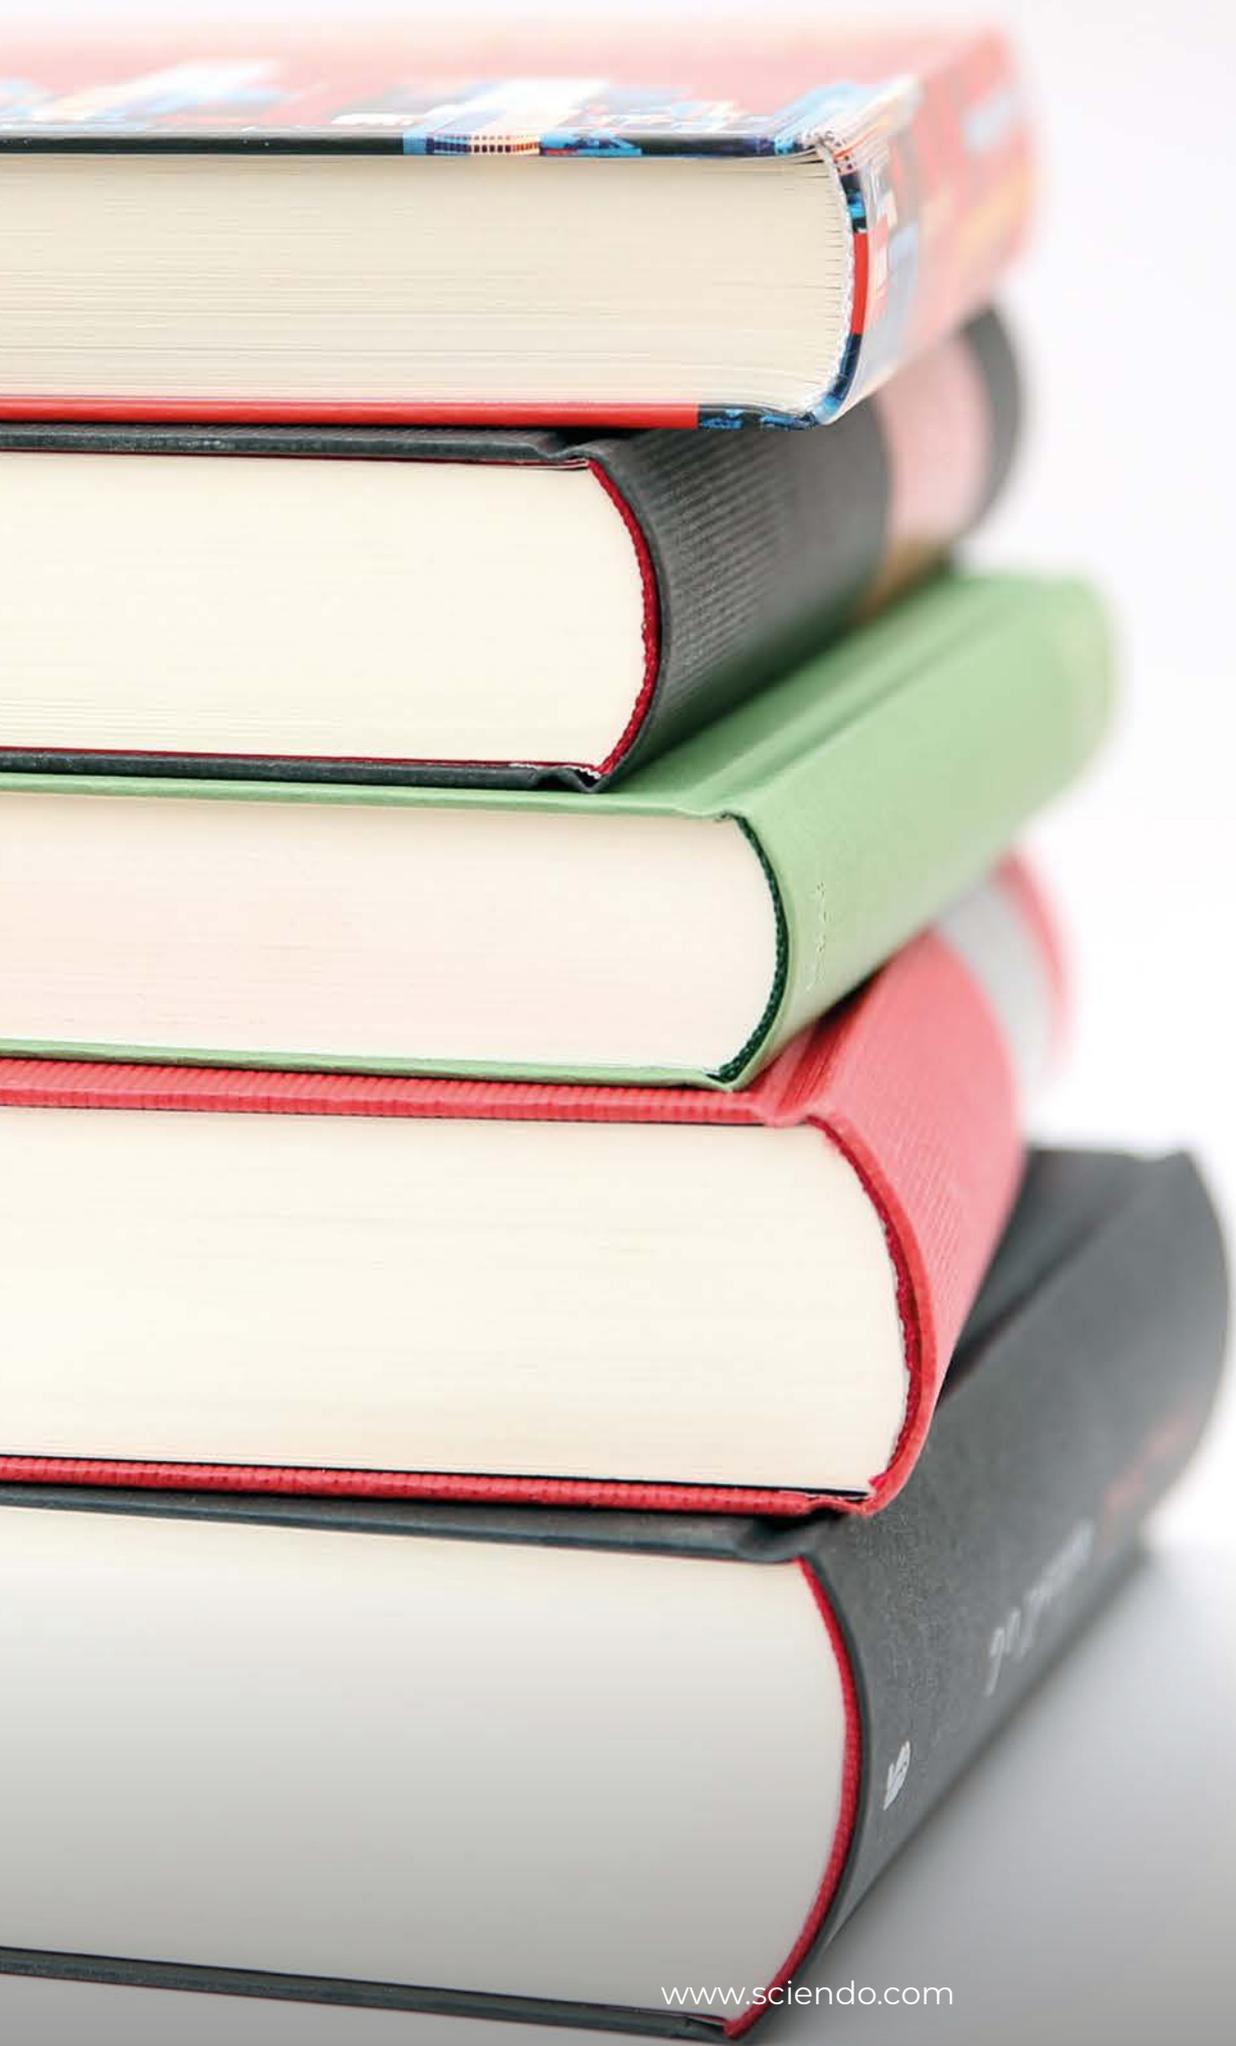

PREMIER

Classic package
Copyediting
ePub version
Marketing Extra

Sciendo offers a wide range of **additional publishing solutions** that authors can pick and choose from, depending on his/her requirements.

The author or the sponsoring institution can decide whether they prefer to offer an electronic version of their books in the Open Access model, or to make money from book sales. For books available in the paid access model, Sciendo sells ebooks and print-on-demand books directly from the www.sciendo.com website, and sells ebooks through retailers, wholesalers, library aggregators and other distributors. For the Open Access books, Sciendo sells print-on-demand books directly from the www.sciendo.com website.

Service list

The tables present the components of each package and additional services.

Service descriptions

Sciendo provides technology solutions and services that can enhance your book publication.

HOSTING PLATFORM

All books published by Sciendo are uploaded to the platform and have their own webpages at www.sciendo.com. They can be easily read, searched and purchased online. PubFactory technology automatically creates links to all linkable references in the book chapters. This enhances the reading experience, as the reader can jump to a cited book or journal article.

PRODUCTION SERVICES

In the Standard package we expect to receive the book file properly formatted. However, in the Classic and Premier packages, Sciendo offers typesetting and proofreading. As a rule, we design the cover and contents of each book according to our standard layout, but – as an additional service – we can design the cover and layout for each book individually. As an additional service, we can render the ebook in formats used by smartphones and tablets.

EDITORIAL SERVICES

If you want the book to be written in perfect English, you should use our copyediting and language editing services, which are offered for an extra fee per page. There are three levels of this service, ranging from the light edit, through medium edit to heavy edit. The heavy edit is done by native English specialists in the broad subject field of the book. Please contact us at the e-mail address given below for more details.

PRINTING

Each book published by Sciendo can be purchased as a printed copy. To this end, Sciendo prepares files necessary for print-on-demand. Each author receives one complimentary printed paperback copy of his or her book. Also, for an extra fee, we can print as many copies as desired, in hardback or paperback, on different types of paper.

ABSTRACTING AND INDEXING

Just having a book published is not enough. The book should be visible and findable in specialized services. These services index the information about the book or host its abstract (summary). Sciendo cooperates with the majority of A&I services: **Clarivate Analytics, Scopus, PubMed, Medline**, citation indexes or discovery services, where we send book metadata and abstracts. Our technology allows automatic transfer of such data to A&I services.

MARKETING EXTRA PACKAGE

Sciendo has created a special set of marketing services, which help to promote the book among readers and other authors. Here are two of the six services that compose this package. Sciendo informs all living and reachable authors who have been cited in the book about this citation. This makes the book noted, read and cited. Also, Sciendo writes and distributes the press release about the book, and, optionally, also offers an interview with the author.

SALES AND DISTRIBUTION

Every book published by Sciendo can be purchased at **www.sciendo.com** as a printed copy, both paperback and hardcover. Also, ebooks are sold online, unless the party of the contract with Sciendo (the author or his/her institution) has decided to offer it in the Open Access. Sciendo keeps only 30% of net revenues. Such sales are possible through **www.sciendo.com** and through many retailers that Sciendo works with like Amazon, Ingram or Barnes & Noble. Sciendo distributes the Open Access books to many full-text repositories and directories.

If you need personal support or to discuss the terms, feel free to contact our Customer Service Manager
